

Personalised Learning with iPad

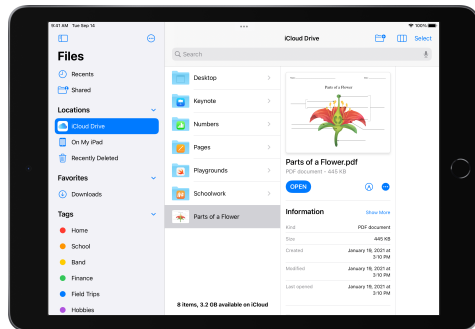

A Guide for School Leaders

When you invest in Apple technology, you're providing your community with a powerful ecosystem for learning — one that's informed by more than 40 years of experience working with educators. We provide products, services and support to enable learning that's connected, collaborative, creative and personal to equip students with skills for an increasingly technology-driven world. iPad is as versatile as it is portable, with all-day battery life, so students can take it wherever they want to learn — in the classroom, out on a field trip and all the places in between.* iPad works seamlessly with apps and services that are compatible with school systems, including the Singapore Student Learning Space (SLS), Microsoft Office 365 and Google Workspace for Education.

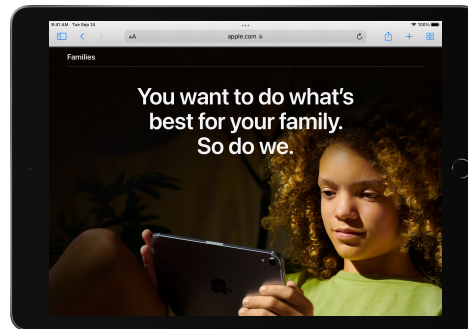

Connected. iPad enables equitable access to quality content anytime, anywhere.

Easy file management. Connect to, organise and share content from cloud-based storage services using the Files app. Access files on a USB drive too. Learn more about [Files on iPad](#).

Safe access to content. Schools can secure devices and ensure responsible use. Explore features that [help ensure students can use iPad responsibly](#).

Quality resources. Find the perfect app to support your students' needs. Visit the [App Store](#) to browse a wide range of quality educational apps.

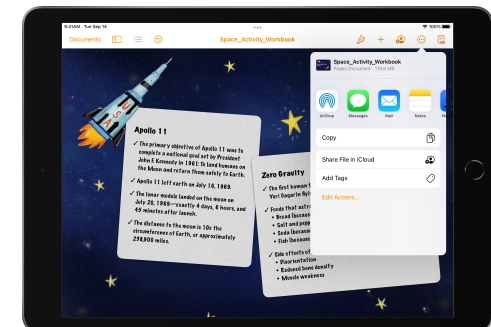

Collaborative. iPad empowers teams to work together towards a shared purpose.

Shared notes. Work together in the Notes app by sharing a quick thought, creating checklists or sketching ideas. See how easy it is to [collaborate in Notes](#).

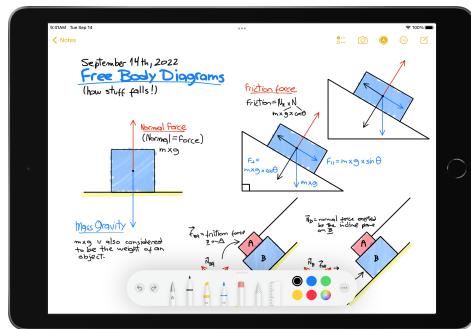

iWork collaboration. Students can create together using powerful apps from Apple, such as Keynote, Numbers and Pages. Explore [real-time collaboration on iPad](#).

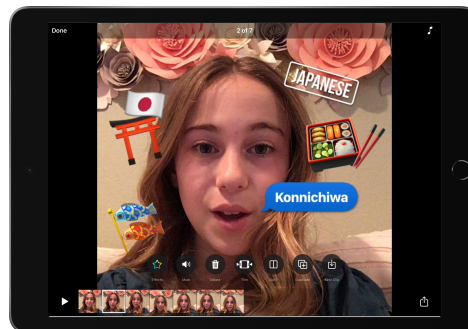

AirDrop sharing. Share work quickly and easily with any nearby Apple device. Learn how to [use AirDrop on iPad](#).

Creative. iPad supports learning through discovery, inquiry and creation across all subjects.

Apple Pencil. Take notes, sketch and explore ways to express concepts. Learn how to [create handwritten notes](#) with Apple Pencil and iPad.

Moviemaking with Clips. Capture moments and tell stories using Memoji and creative effects. Learn more about everything you can do with [Clips](#).

Screen recording. [Create a lesson](#), explain a problem or share your work. Learn how to [record your screen on iPad](#).

Personal. iPad empowers learners to design their own learning paths.

Personal workflows. Personalise and streamline teaching workflows on iPad. Explore [30 tips](#) to help save time and make it easier to teach with iPad.

Text that speaks. Speak Selection and Speak Screen support reading and comprehension by allowing students to listen to text. Watch how easy it is to [have iPad read aloud](#).

Classroom guidance. Help students work independently while providing ongoing support with the Classroom app. See how to [guide student learning](#) with Classroom.

Apple supports your school's success

Dedicated Apple Education team. Your school will have access to a dedicated local education team that includes experienced educators and professional learning consultants to help you plan and deliver the best technology-enhanced learning experiences. For more information, contact your Apple Education team at programs_sa@apple.com.

iPad for PLD workshop for school leaders. Learn and develop essential elements for creating a technology-rich learning environment in this workshop for school leaders. You'll learn how to build an effective plan based on your vision for personalised learning. [Sign up >](#)

Professional learning for teachers. Apple Professional Learning Specialists help your teachers bring technology into their classes through lesson ideas, student guides and design maps that can be integrated with the SLS to keep students engaged. [Learn more >](#)

Streamlined deployment and management for IT leaders. Apple School Manager supports a modern deployment and management model, so IT administrators can save time and get staff and students up and running in minutes. Schedule a briefing with Apple for your IT personnel to discuss your school's setup and explore best practices for deploying and managing devices. [Schedule a briefing >](#)

Test-driving iPad in your school. The iPad Learning Experience is a complimentary three-week in-school pilot programme in Singapore that helps you explore how iPad can transform learning. After the pilot, your school will get up to 12 months of continuous support with project management and teacher training if you fully implement a personal learning device (PLD) programme with iPad.
